Our food

We've teamed up with a great selection of suppliers, many of which are local to Bristol. Our aim is to bring you a menu with strong Provenance and a genuine respect for the source of our ingredients. Organic meat is at the centre of this and we're really proud to say that, as well as being organic, all of our meat is free range. Don't eat meat? We have a number of vegetarian and vegan options available on the menu. Dessert is also taken care of: we've teamed up with a Bristol-based bakery to provide a selection of delicious treats.
